

PURECLOUD

## MEET THE DYNAMIC DUO

The new Meraki MR and Umbrella integration can provide you with a seamless, simple and wireless security solution that protects your network and users regardless of their location.

### Cisco Umbrella

**Powerful, effective security.**

Cisco Umbrella provides the first line of defence against threats on the internet like malware and ransomware wherever users go.

### Cisco Meraki MR

**Do more with less.**

Meraki MR access points provide you with a quick and intuitive solution to deploy, configure and provide wireless coverage for your business.

DNS - LAYER SECURITY

UNMATCHED INTELLIGENCE

RELIABLE INFRASTRUCTURE

EASY DEPLOYMENT

INCREASED VISIBILITY

RELIABLE COVERAGE

EASY CONFIGURATION

REDUCED COST

### EASY AS 1 - 2 - 3...

#### 1. Link Accounts:

Simply input the API key and secret from Umbrella into the Meraki dashboard.

#### 2. Create Umbrella Policies:

If you're new to Umbrella, the intuitive Umbrella policy wizard walks you through each step.

#### 3. Select Umbrella Policies:

In the Meraki dashboard, assign Umbrella policies per SSID or using Meraki Group Policies.
